Subject: RE: quick cell #1 question

thanks Anita - I thought it was something like that. And yes, I was looking for the breakout costs for emptying cell #1 versus capping the DDA.

Dave

▼ "Rigassio-Smith, Anita" ---07/23/2010 03:02:01 PM---Hi Dave, The volume we estimated for Cell #1 was 23,000 cy.

Hi Dave,

The volume we estimated for Cell #1 was 23,000 cy.

I'm not sure what you mean by "the two projects"? Are you referring to emptying Cell #1 as one project and emptying the DDA as another?

Anita

Subject: quick cell #1 question

Anita and Mark - for our 8/11/10 PRP meeting I'm looking for the estimated volume in cell #1 that would need T&D. I'm hoping you have it readily available as part of the \$16.7m estimate for cell 1 and the DDA. Estimates are fine, doesn't have to be exact. Also, how does this \$16.7m split between the two projects? Something like \$14m/2.7m if memory serves, no?

Thanks - Dave
